## Bluetooth HID Keyboard Connect

Your scanner can be paired with Bluetooth-capable devices, such as personal computers, laptops, and tablets, so that scanned data appears on your device screen as though it was entered on the keyboard. In order to pair with the Bluetooth device:

1. Scan the appropriate **Bluetooth HID Keyboard Connect** bar code below.

PAPBTH.

Bluetooth HID Keyboard Connect

PAPJKB.

Bluetooth HID Japanese Keyboard Connect

2. Set your personal computer, laptop or tablet so it searches for other Bluetooth devices. (Refer to your device's User's Guide for pairing instructions.)

3. Select the scanner name on your device. Some devices will automatically pair with the scanner. If your device pairs automatically with the scanner, it displays a successful pairing message and you do not need to continue to the next step.

4. If your device does not automatically pair with the scanner, a PIN is displayed. This PIN must be scanned within 60 seconds. Quickly scan **Bluetooth PIN Code** below, then scan the numeric bar code(s) for the PIN code from the chart below, then scan **Save**.
